

1333 Highland Road, Suite P Macedonia, OH 44056 (330) 998-7380

InsightFuel is a philosophy for helping contractors build CNG fueling stations faster with uncompromised safety and efficiency.

Patent-pending coiled tubing straightener pays-out $\frac{1}{2}$ " and $\frac{3}{4}$ " coiled tubing quickly and easily, saving contractors many hours compared to conventional methods and materials.

Straightener is delivered to job site on LTL truck in returnable container holding all job materials. Orientation training provided by InsightFuel, Construction Service personnel.

Summary

- Avoid time-consuming and expensive welding
- Pays-out up to 300' lineal feet of $\frac{3}{4}$ " tube or 700' lineal feet of $\frac{1}{2}$ " tube
- Safe, fully mechanical operation
