

VENTED GAUGE VALVE ASSEMBLIES

Features

- Complete assembly for monitoring CNG system pressures
- Locking Bonnet Rising Plug Valve design with PEEK seats for low temperature CNG applications
- Bleed valve with Tee-Handle for rapid venting
- Tube end vent port can be connected to tubing for remote venting
- 10 ksi liquid filled guage. 0-10 ksi scale for mid-range accuracy

Specifications

- Temperature Range: -40 to 300 °F
- Pressure Range: Up to 6000 psig
- Body Material: 316 SS
- End Connections: 1/4 in NPT
- Seat Material: PEEK

Unique Benefits

- Complete unit to monitor CNG system pressure
- Monitor filter condition inline
- SAE O-rings for easy maintenance
- Low temperature NBR O-rings
